CF SERIES CARTRIDGE FILTERS

evolution[®]

WATER & LIGHTING SOLUTIONS

www.evolutionwls.com.au

The Evoclear CF Series Cartridge Filter range provides environmentally friendly, super fine filtration for crystal clear pool water. CF Series Filters are suitable for all swimming pool types, are chemical and corrosion resistant, and are ideal for tight spaces.

The CF Series Advantage

- Super fine filtration for crystal clear water.
- Filter media made from durable, high grade polyester, with extra fine fibre blending.
- Available in 5 common sizes up to 200sq ft.
- No backwashing required, therefore no salt and pool chemicals released into waterways.
- Compact and light weight, ideal for installation in tight spaces.
- Suitable for all types of pools and spas, fresh water and salt water.
- Resistant to chemicals and corrosion.
- Engineering grade ABS, UV resistant, plastic housing and components.
- Internal air relief tube eliminates trapped air inside the tank housing.
- Multiple inlet / outlet ports allow for different plumbing configurations.
- Barrel unions for easy installation and quick disconnection.
- Supplied with a quality stainless steel, oil filled pressure gauge.

Warranty

- 5 year limited warranty on Tank.
- 12 months on other components.
- 12 months for commercial installations.

Specifications

Model	Matching Pump (HP)	A (MM)	B (MM)	C (MM)	FILTER AREA (M ² /FT ²)	PIPE SIZE (MM)	MAX FLOW RATE (L/min)
CF50	0.75	625	567	225	4.65/50	40	190
